We are looking to strengthen our team by recruiting a new:

Senior Frontend Developer (Angular)

The Profile:

As a Senior Frontend Developer, you will drive the design and implementation of new features for specific domains of the Angular frontend of our information management platform. You will collaborate closely with product management, UX, backend team and fellow developers to deliver high-quality user experiences and maintain a modern, scalable frontend architecture.

Skills & Qualifications

- University degree in computer science (optional)
- Proficiency in Angular, SCSS and NgRx
- SOLID and clean code practitioner
- Experience in developing enterprise level applications
- Strong understanding of UX principles and modern web application design
- Team player, proactive ownership mindset and results orientated
- Willing to provide guidance to other team members
- EU work permission required

The Job:

- Take responsibility for function and design of key software components
- Create new features for our Angular web frontend in a highly motivated and skilled team
- Focus on quality and maintainability of the Therefore™ pro
- Work on a proven software suite sold and used around the globe
- Develop software in an agile environment (SCRUM)

The Rewards:

- A flexible, international, and collaborative work environment
- A highly motivated team supporting your personal and professional development
- The opportunity to take ownership of frontend innovation in a globally used platform
- The minimum gross salary for this position is €30/hour but will be adjusted based on qualifications and experience.

If these tasks sound like something you would enjoy, we want to hear from you! To apply, please visit our application page at www.therefore.net/apply.
